

DAVID

FIBO 2010 INVITATION

David is very pleased to invite you to visit us at FIBO 2010 – the leading international trade show for Fitness, Wellness and Health at the Exhibition Centre, Essen, Germany from 22nd -25th April. We will be exhibiting in:

Hall 7, booth 7/C15

As you would expect we have a number of new and exciting innovations to take the company forward into the next decade and lead the way for the fitness industry.

David Innovations

To build upon the important developments we made last year, David will be releasing two key additional concepts to its diverse product range which will be on show at FIBO 2010.

EVE Fitness

EVE Fitness, is a revolutionary system that takes strength training to a completely new level. EVE is a complete guidance and monitoring system for the modern day fitness centre

CoreZone Concept

The CoreZone concept is a simple and cost-effective solution for strengthening the core muscles of the body. It is based on David's extensive knowledge of spinal rehabilitation.

David launched EVE Professional for rehabilitation use at FIBO 2009. At FIBO 2010 David will be launching the fitness variant of the system - EVE Fitness.

EVE Fitness and EVE Professional form together a complete solution for handling the whole treatment chain of a patient.
